

# Aftermarket Rotor & Shaft Reclaim

As part of Mono's commitment to help you achieve "Whole Life Cost" for your pumping equipment, we offer a service to assess and refurbish rotors & drive shafts for your Mono Pump and other brands of PC Helical Rotor pumps.

Rotor's play a critical role with a pumps performance and it is important that you start off with the best rotor stator tolerances achievable. All Mono rotors are refurbished to the original design specification and the integrity of the geometry is backed by the Mono name.

The performance of your pump can only be guaranteed if you maintain the integrity between the rotor and stator, so Mono offer a full warranty on all refurbished Mono rotors & drive shafts\*.

Damaged Rotor

Refurbished Rotor
