

EZparts™

To ensure that your EZstrip™ progressing cavity pump continues to perform to 'as built' standards, NOV Mono are pleased to announce a new addition to the family: EZparts™.

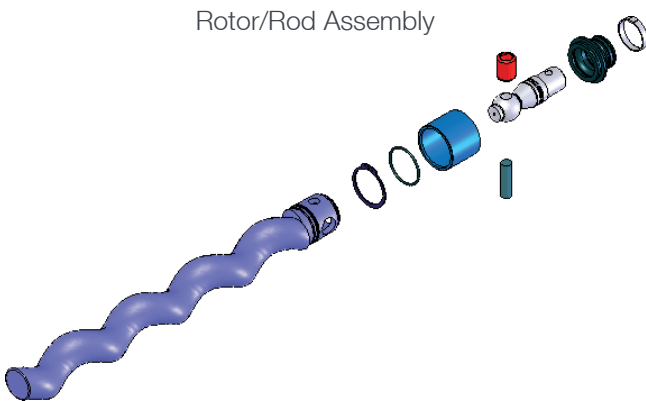

These pre-assemblies are available in both Rotor/Rod and Shaft/Rod assemblies in a variety of rotor and stator materials that are designed for today's demanding and varying applications.

EZparts™ ensure the integrity of your asset is maintained throughout its lifetime, saving you money and downtime.

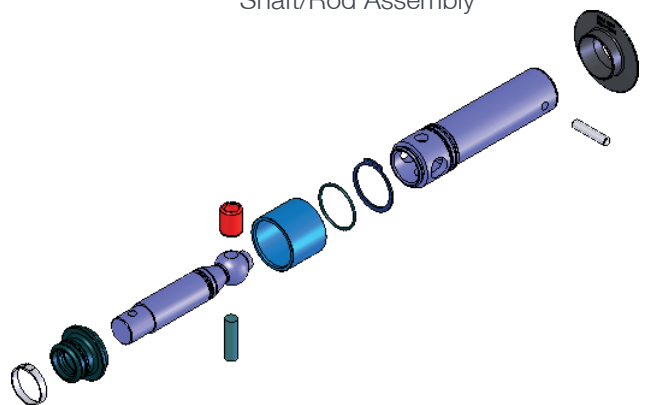

HOW DOES IT WORK?

- EZparts™ come pre-assembled by NOV Mono **SKILLED TECHNICIANS** using genuine Mono parts and lubricants.
- EZparts™ assemblies attract a **2 YEAR** manufacturer's warranty against defective materials and manufacture.
- EZparts™ assemblies attract an additional **5% DISCOUNT** on the sum of the parts.
- EZparts™ are manufactured using superior materials, heat treatment processes and coatings to deliver **ASSET OPTIMISATION**.

Rotor/Rod Assembly

Shaft/Rod Assembly

AVAILABLE ON ALL NEW EZstrip™ PROGRESSING CAVITY FROM 1ST JUNE 2011.
