

ECO Pressure Sewer Systems

The Next Generation In Pressure Sewer Equipment

Design

- Low profile lid blends into gardens
- Dry well pump installation - provides a clean environment
- 'Plug 'n' Play' electrical connections
- Single & dual pump configurations
- Available in a range of tank options to suit every requirement

Safety

- Inherently safe design
- No access to wet well when lid removed
- Grinder pump not submerged in sewage

Protection

- Electronic over pressure monitoring to protect unit and network integrity
- Intelligent auto-correcting controls
- Vertical self-cleaning inlet
- Telemetry ready

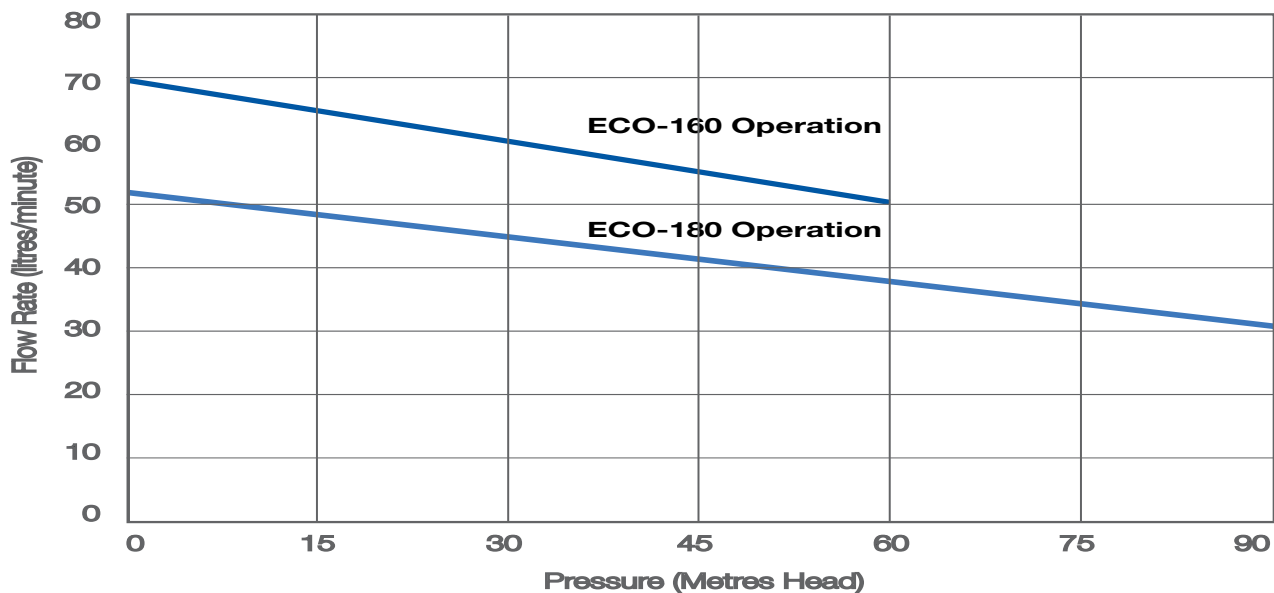

Peace of Mind

- WSAA Appraisal - the only PSS system to be appraised
- Zero scheduled maintenance
- Supported by Mono Pumps - a company with over 55 years industry experience

Performance

- Superior performance -
Flow: 1.0/lps
Head: Up to 80m
- Highly efficient motor & pump means lower operating costs

Performance

Highly Rugged and Effective

- Developed by a specialist PC pump company
- Full life tested up to 80m
- High flow
(Single Pump 1 litre/sec & Dual Pumps 2 litre/sec)
- Plug and play electrical connections for fast and easy change over
- Powerful bi-hammer macerator
- Highly efficient progressive cavity pump

The Ultimate in Pump and Network Control

- Highly accurate, electronic over pressure protection
- Protect pump and network from pressure spikes
- Grinder pump not submerged in sewage
- Automatic voltage monitoring to protect against "brown-outs"
- Data logging built in as standard
- All units easily upgraded to full telemetry
- Automatic problem correction
- Visual and audible alarms
